Subject RE: Utah Transit Authority property

Joyce,

I just spoke with Mary from UTA. She said she was reasonably sure UTA could stay at a depth of 2' or less. She also said she thought the plan was to go from the metal-clad building to 4th West via the NW corner of the triangle. That area was excavated to 5' at the corner of the metal-clad and 8' at the tip of the triangle. They apparently do not have complete plans and drawings yet. I asked her to send me copies when they do.
